

Shahnameh Community Engagement

Building a strong, engaged community is central to the success of the Shahnameh T2E project. The strategy focuses on fostering a vibrant, inclusive, and culturally enriched environment where users can connect, learn, and share their experiences. Key community engagement initiatives include

Social Media Presence .1

Active Channels: Shahnameh T2E will maintain an active presence on major social media platforms like Telegram, Twitter, and Instagram. These platforms will be used for daily updates, event announcements, and interactive content, ensuring that the community stays informed and engaged.

Direct Interaction: Community managers will actively engage with followers, responding to questions, comments, and feedback. This approach promotes a sense of connection and builds trust with the user base.

Ask Me Anything (AMA) Sessions .2

Regular AMAs: The project will host regular AMAs with the development team, cultural experts, and blockchain professionals. These sessions provide a platform for users to ask questions, share their ideas, and gain insights into the project's progress, goals, and cultural significance.

Special Guests: Inviting influencers, cultural historians, or blockchain experts to participate in AMAs will add value for users, offering diverse perspectives and fostering a deeper understanding of Shahnameh T2E's cultural and technological aspects.

Community Contests and Challenges .3

Creative Contests: Organizing art, storytelling, and meme contests where users can showcase their creativity while exploring the stories of the Shahnameh. Winners will receive REAL tokens or exclusive in-game items, encouraging engagement and rewarding creativity.

Daily and Weekly Challenges: In-game challenges will encourage regular participation, offering players the opportunity to earn rewards and level up. This not only boosts engagement but also enhances the user experience by providing consistent motivation to interact with the game.

Educational Content .4

Cultural Insights: Sharing educational content about the Shahnameh, Persian history, and blockchain technology helps users gain a deeper understanding of the game's cultural and technological context. This content will include articles, videos, and infographics that are easy to understand and visually engaging

Blockchain Education: Offering tutorials and guides on blockchain technology, NFT ownership, and how to engage with the TON Blockchain. This helps demystify the technology, making it more accessible for users new to blockchain and crypto

Referral Program .5

Rewards for Referrals: Shahnameh T2E will implement a referral program that rewards users for inviting friends and family to join the game. This not only expands the community but also strengthens existing user connections within the game

Ambassador Program: Empowering active users to become community ambassadors, promoting the game on social media, and helping onboard new players. Ambassadors will receive special rewards and recognition for their contributions

Community Feedback and Development .6

User Feedback Loops: Collecting and incorporating community feedback is essential for refining the game. Shahnameh T2E will establish regular channels for users to share their thoughts on gameplay, features, and content. This could include surveys, polls, or dedicated feedback channels on Telegram

Beta Testing and Involvement: Inviting community members to participate in beta testing phases, allowing them to contribute directly to the game's development. This not only improves the game but also makes users feel invested in its success

Exclusive Events and Giveaways .7

Special Events: Hosting themed events around Persian festivals or important dates in the Shahnameh storyline. These events can include unique challenges, exclusive rewards, and opportunities for players to learn more about Persian culture

Giveaways: Regular giveaways of REAL tokens, NFTs, and in-game items to celebrate milestones and recognize active community members. These giveaways help maintain excitement and encourage continued participation

By cultivating an engaged and informed community, Shahnameh T2E aims to create a supportive environment where users feel valued and connected. This focus on community engagement not only enhances the user experience but also helps build a passionate and loyal fanbase that will drive the project's long-term success
